10. Recommendations	94
11. Municipal Manager’s quality certification.....	95

PART 1 – IN-YEAR REPORT

1. Executive Summary

Section 72 of the Municipal Finance Management Act No 56 of 2003, requires the accounting officer of a municipality to assess the performance of the municipality for the first half of the financial year. This assessment is done taking into consideration all section 71 reports that have been prepared and tabled, the municipality's service delivery performance for the six months as set out in the service delivery and budget implementation plan and the past year's annual report.

All departments have done their respective performance assessments for the first half of the financial year, and this must at the end give an indication of whether there would be a requirement for the revision of the budget or not. In addition to this, in terms of the determined performance, departments also need to determine whether there are any revisions that need to be made to the set targets as per the current SDBIP.

A detailed report has been prepared and reviewed, with portfolio of evidence on the achieved targets, and for those that have not been achieved, remedial actions have been put in place. This of course is accompanied by an indication of the inevitable revisions that need to be made to the budget and the SDBIP.

It is important to note that, although these revisions need to be made, there are no new funds that the municipality envisages to receive that do not have already identified programs to fund, but rather, it is required to make do with the little available resources. In fact, the reverse has happened where conditional grants for INEP and MIG have been reduced for all municipalities due to the country's economic status at the moment and affordability levels. Strategies still need to be formulated in terms of the challenges faced by the municipality of road infrastructure maintenance backlogs and those caused by inclement weather, community facilities and well as sustainable maintenance plans. The revision of the budget, must, to some extent be able to address those issues.

The distribution of electricity has seen some improvement in terms of revenue that is being generated over the past three years, with the hope that the efforts to maximise on the service will continue to bear fruits into the future. This is due to some initiatives that have been taken by the Engineering Services working together with the Budget and Treasury Office.

1.1 The Political Oversight

The municipality's Executive Committee is composed of the honourable councillors indicated below with their respective responsibilities within the municipality as follows: -

- Cllr T.D Mafumbatha Mayor – (Chairperson)
- Cllr L. Makholosa Development Planning Portfolio Head
- Cllr. N. Dlamini Engineering Services Portfolio Head
- Cllr N. Madikizela Budget and Treasury Portfolio Head
- Cllr L.G Mcambalala Corporate Services Portfolio Head
- Cllr N.M Njomi Community Services Portfolio Head
- Cllr. N.E Cengimbo Committee member – (Acting Good Governance and Public Participation Portfolio Head)
- Cllr. P.B Majavu Committee member
- Cllr. N. Langasiki Committee member

1.2 Budget and Treasury Political Oversight Structure

The municipality' Budget and Treasury is tasked with the municipality's financial management responsibilities with its own political oversight structure constituted as follows:

- Cllr N. Madikizela Chairperson
- Cllr A. Diya Committee Whip
- Cllr. N Cengimbo Committee Member – Asset Management
- Cllr. X. Bhabhazela Committee Member – Supply Chain Management
- Cllr S. Nomvalo Committee Member - Reporting
- Cllr S. Jayiya Committee Member - Budgeting
- Cllr L. Silangwe Committee Member - Expenditure Management
- Cllr. P. Siramza Committee Member - Revenue Management

2. Administration

The municipality has been implementing mSCOA with its annual updates like all municipalities in the country as a business reform since its introduction from 1 July 2017. This was introduced to address among other things ensuring standardisation of treatment of transactions and reporting across all municipalities, to encourage proper planning and put controls in terms of revenue and expenditure management. Introduction of new and improved versions of the mSCOA chart has proven to present problems that sometimes make it impossible to operate normally requiring some extra effort to be put into the operations of the municipality to fulfil its service delivery mandate.

3. Staff turnover and vacancy rate

This section of the report looks at the movement of staff and the rate at which the municipality is able to fill vacant positions as well as progress on the filling of any vacancies.

a) Summary of positions per department

Departments	Number of posts as per Approved Org Structure	Filled posts	Vacant posts
Municipal Manager	43	40	03
Corporate Service	47	46	01
Budget & Treasury	25	21	04
Community Services	134	118	16
Engineering Services	43	40	03
Development Planning	23	21	02
Total	315	285	30

b) List of vacant positions

Departments	Vacant Positions	Reason for Vacancy	Funded/Not funded
Municipal Manager	1. Monitoring & Evaluation Officer	New position	Funded
	2. SPU Co-ordinator	Not funded	Not funded
	3. Legal Officer	Not funded	Not funded

Departments	Vacant Positions	Reason for Vacancy	Funded/Not funded
Corporate Service	1. Receptionist	New position – awaiting the functioning of civic centre	Funded
Budget & Treasury	1. Accountant: Payroll	Resignation	Funded
	2. SCM Officer	Resignation	Funded
	3. Asset Management Clerk	Resignation	Funded
	4. Cashier	Incumbent placed in another department.	Not funded
Community Services	1. Dozer Operator	New position	Not funded
	2. Weight Bridge Operator	New position	Not funded
	3. Landfill Supervisor	New position	Not funded
	4. Driver X 2	New position	Not funded
	5. General Assistants X3	New position	Not funded
	6. Parks & Cemetery Supervisor	Resignation	Funded
	7. Assistant Librarian	Not funded	Not funded

Departments	Vacant Positions	Reason for Vacancy	Funded/Not funded
	8. Chief Traffic Officer	Not funded	Not funded
	9. Examiners X2	1 Not funded 1 Funded	Not funded
	10. Pound Assistant X2	Not funded	Not funded
Engineering Services	1. EPWP Co-ordinator	Not funded	Not funded
	2. General Assistants X2	Not funded	Not funded
Development Planning	1. Agric Dev Officer	New post	Not funded
	2. Town Planner	Not funded	Not funded

c) Progress on recruitment processes

Departments	Position	Status
Budget & Treasury	Accountant: Payroll	Interviews were conducted on the 10 th of January 2025. Employment offered to the successful candidate and awaiting a response. Anticipated start date is the 01 st of March 2025.
	SCM Officer	Advert closed on the 30 th of December 2024. HR is busy with master list compilation.

Departments	Position	Status
Community Services	Cashiers X2	Advert closed on the 30 th of December 2024. HR is busy with master list compilation.

4. Implementation of mSCOA

The municipality, like any other municipality in the country has been implementing mSCOA from 1 July 2017 as required. Following are some of the challenges that the implementation has posed to the municipality over the years:

a) Challenges Identified

i. Version Changes

On an annual basis, the mSCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.8 is released with MFMA circular 126. Version 6.8 of the chart will be effective from 2024/25 and has been used to compile the 2024/25 MTREF.

Since the introduction of mSCOA, National Treasury has introduced a number of chart versions with the latest version referred to above used for the draft and subsequently the final budgets for 2025 as well as the day to day operations of the municipality throughout the said year.

The version introduced a number of improvements from the previous versions which are expected to pose new challenges to the way the municipality does business and records transactions. We, however continue to examine the new chart to understand the full extent of the changes and their anticipated impact thereof.

History has taught us that there does not seem to be any agreed upon plan on the side of the system vendors and Treasury themselves to ensure that the information gets transferred in a uniform manner as we find that some municipalities do not face the same challenges as others while others only realise when issues are being raised that they have similar challenges.

ii. IDP Budgeting

mSCOA requires that the IDP non-financial information be linked to the budget not only at the IDP and SDBIP level but also at the financial system level. As a way to force this, mSCOA has since required that all expenditures be linked to a strategic objective, project and specific ward in the municipal area including expenditure on personnel expenses.

iii. Production of in-year reports

All approved system vendors were required to have a functionality to produce all statutory reports to avoid municipalities having to prepare these manually. Munsoft was approved as one of the service providers on the strength that they indicated they use Caseware to produce these reports which the municipality also has access to. The utilisation of these two systems does however require some work and setting up to ensure they fully integrate, which was successfully addressed after the upgrade to the latest version of the mSCOA chart. This report has been prepared using a combination of these two platforms very little requiring manual manipulation to comply fully with the Municipal Budget and Reporting Regulations which is how the reporting templates are setup.

iv. Budget and reporting module functionality

The budget module of the system that the municipality uses has in the past been discovered to only work well with income and expenditure, other modules like balance sheet and cashflow budgeting still continue to produce aligning reports even though some principles may not fully align with GRAP. This challenge seems however, to have been addressed and we continue to analyse the reasonability of the principles these modules are using to check consistency with the financial management and reporting standards.

Even though attempts are being made to ensure that all system vendors get their systems working as required when it comes to the balance sheet and cashflow budget, there is however consensus that the principles and information required to produce these are currently subject to discussions and revisions are required.

There are a number of trainings setup by both Treasury and system vendors on the balance sheet and cashflow budgeting which we have attended and will continue to attend as the municipality to ensure full compliance during the upcoming budgets and all other subsequent reporting requirements.

b) mSCOA Governance Structures

The introduction of mSCOA introduced a number of governance structures that were meant to ensure full compliance and seamless transition when the deadlines for full implementation came. Key structures that were established were as follows:

- Project steering committee
 - This was made of the following prescribed persons:
 - Project sponsor – Accounting Officer
 - Chief Financial Officer
 - Senior Manager – Corporate Services

- Senior Manager – Engineering Services
 - Senior Manager – Community Services
 - Manager – Internal Audit
 - Manager – ICT
 - Manager – Municipal Operations
 - Manager – Budgeting and Reporting
 - Manager – Revenue and Expenditure
- Project implementation team
 - This is a committee that was assigned by the municipality’s Project Steering Committee which also included a multi-disciplinary team as follows:
 - Chief Financial Officer – Project Manager
 - Manager – Human Resources
 - Manager – Project Management Unit
 - Manager – Environmental Management
 - Manager – ICT
 - Senior Internal Auditor
 - Manager – Municipal Operations
 - Manager – Budgeting and Reporting
 - Manager – Revenue and Expenditure
 - Manager – Supply Chain Management

All these structures were initially appointed in 2015 before full implementation of mSCOA and re-appointed again during the first quarter of the 2023/24 financial year since there was a number of changes in the municipality’s personnel which has resulted in the need for these structures to be re-established to include new members of management and replace those who are no longer with the municipality.

5. 2023/24 Audit Progress and Action Plan Formulation

The municipality prepared and submitted Annual Financial Statements for the year ended 30 June 2024 to the Auditor General of South Africa on 31 August 2024 as required.

Planning was scheduled to commence from 18 March 2024 to 30 April 2024 but a week into it, it was abandoned as the office of the Auditor General did not have sufficient resources to conclude it due to the PMFA audits that were in full swing at the time. Planning therefore commenced in July 2024, this is a process that normally gives them an idea of the areas to focus on during the audit come the end of the year and also determine sample sizes that might be necessary to perform all necessary procedures. The current audit has the same team from the auditors' side which we hope will assist in terms of understanding the municipal processes and GAP analysis, the team is very strict on timeframes and have no tolerance for any type of delays.

The following milestones have been covered:

- Kick-off meeting was held on the 15th of August 2024
- AG and Municipal Management meeting scheduled for 22nd August 2024 to discuss issues circulating on Local newspaper about the municipality where one on one sessions were held between management and the management of the Office of the Auditor General.
- Presentation of the audit strategy done on the 19th of September 2024
- Engagement letter signed on the 23rd of September 2024
- Planning concluded on the 25th of September 2024
- 70 RFIs were issued and all submitted within stipulated times
- 20 CoAFs were issued compared to 25 CoAFs in the previous audit at the same time with the same areas having issues:
 - Internal Audit quality assurance not done (One responded late)
 - Internal Audit reports not presented to the Audit Committee
 - Inconsistencies on AoPo and supporting information
 - Number reported for electrification projects that could not be verified
 - Incorrect locations of electrification projects (GPS co-ordinates)
 - Amounts recorded in the performance report for infrastructure not the same as amounts confirmed on the asset register
 - Numbers reported for indigent support incorrect
 - Amount reported as spent on support of indigents not supported

- Indigent beneficiaries not on the indigent register
- Contracts with no evidence that they were monitored monthly
- Service providers submitting fraudulent appointment letters not reported to Treasury for possible blacklisting
- VAT incorrectly accounted for on the INEP related revenue recognised
- WIP registers not tying to the amounts reported on the Annual Financial Statements
- Incorrect process followed in the allocation of work for contractors on the panels

Other important matters to report on the audit process:

- Annual Financial Statements and Annual Performance Report submitted on 31 August 2024
- Accounting file submitted electronically
- All SCM tenders awarded submitted with the accounting file
- AoPo PoE files submitted electronically

Observations and areas to look out for during the audit:

- RFI 03 Requesting the system vendor to allow AG access to the municipal accounting system to extract information directly for their own analysis
- Audit getting more detailed and focused on areas of public outcry
- Dumping site continues being under serious scrutiny
- Civic center completion and expenditure reconciliation will be under scrutiny
- Information submitted with the audit file to carry more wait than information submitted later
- Information not on the audit file to be requested separately
- The validity and completeness of the indigent register has attracted serious attention from the auditors as information surfaces that some beneficiaries are not on the register

The audit was indeed concluded by 30 November 2024 as expected with the municipality confirmed to have received an Unqualified Audit opinion with a compliance paragraph on Supply Chain Management processes related to allocation of work on panels.

A audit action plan framework has been developed and distributed to all members of the municipality’s management team for inputs on the corrective measures relating to each item as raised on the management report.

6. Implementation of the Municipal Cost containment regulations

During the month of June 2019, the minister of finance approved Municipal Containment regulations effective from 1 July 2019. The regulations required municipalities to develop, adopt and implement policies as part of its budget related policies to support cost containment measures. These regulations were unfortunately approved after the municipal budget processes had been concluded which made it difficult for municipalities to develop these policies at such a short space of time. The council of Winnie Madikizela-Mandela Local municipality developed and adopted a policy on cost containment that is now being implemented.

The municipality has since implemented the following measures in line with cost containment:

- No catering for all meetings taking less than 5 hours
- No catering for all meetings held by only staff members regardless of the duration of the meeting
- All accommodation arrangements set within the limits as communicated
- All sporting activities have been discontinued.

The implementation of these regulations has seen a reduction in the amounts spent on traveling and accommodation and catering expenses which we believe will assist the municipality to redirect these funds to other service delivery initiatives in the years to come including the current year. The table below compares spending at the same time last year and the current year which shows an increase. This however, may not provide the information expected because of the following reasons:

- It compares two periods where both had cost containment
- It compares a period where there was a change in leadership requiring a lot of workshops and traveling

Mid year			
ITEM DESCRIPTION	2023	2024	SAVING
Travel and accommodation	5,110,180.33	2,984,342.02	(2,125,838.31)
Catering	2,276,821.43	1,800,897.40	(475,924.03)
Sponsorship (Sport development)			-
Sport Activities (SAIMSA)			-

Consulting fees	7,047,084.54	7,162,983.17	115,898.63
Total	9,821,892.90	14,434,086.30	(4,612,193.40)

a. Supply and Delivery of Municipal Vehicles

As part of the cost containment regulations municipalities were directed to utilise the transversal contracts arranged and negotiated by National Treasury to procure municipal vehicles. According to the regulations, municipalities are only allowed to procure vehicles using any other means only if they can demonstrate that they will get the vehicles cheaper when using their own procurement processes. The municipality applied for approval to participate in the transversal contract (RT-57 2019) for procurement of municipal vehicles with National Treasury which was granted.

The municipality gathered information on how the procurement must then take place through the Special Conditions of Contract. This meant that all advertisements for this procurement will now be cancelled and completely discontinued. The procurement process through the transversal contract requires the following:

- The municipality to identify the need
- Development specification
- Check the specification against published suppliers and specification by Treasury
- Identify the supplier that is rated higher by treasury on the list of suppliers
- Send the order to the highest ranked supplier first
- Allow three working days for the supplier to respond
- Move only to the second ranked supplier with the permission of the highest ranked supplier

Since the implementation of the regulations, the municipality has utilised the contract to procure municipal plant and machinery and significant savings have been realised through negotiated prices and direct procurement from the dealerships that are on the panel contracted by National Treasury. The current financial year will be no different, all procurement of vehicles will be done through the transversal contract.

b. Provision of vehicle fleet management services for the period 1 April 2021 to 31 March 2026

As part of both cost containment and operational needs of the municipality, the municipality has been approved to be a participant of RT-46 2020 arranged by National Treasury. The contract covers a range of services including the following:

- a) Fleet data integration
- b) Fuel, oil and Toll services
- c) Managed Maintenance, Repairs and Accident Reports
- d) Vehicle Tracking and Monitoring
- e) Driver, Vehicle Condition and Fine Management

We were hoping the approval in this contact will greatly assist the municipality in addressing the delays in procurement processes in cases where vehicles are required to be available for use in the short space of time. There are challenges which cause delays in the maintenance processes that we believe will need to be addressed with both National Treasury and Wesbank fleet services as the appointed service provider. Meetings are held quarterly with the appointed service provider to raise challenges faced. Some of the challenges are as follows:

- Shoddy work performed by some appointed mechanics
- Delays in assessments conducted by the service provider before approval of the repair work required
- Mechanics taking longer than expected to complete approved maintenance work
- Locations of service providers not confirmed before work is allocated

As part of the meetings with the service provider appointed by National Treasury we have been able to get clarity on some of the issues with their proposed solutions:

- Allocation of work is done according to the contract terms requiring that emerging mechanics and workshops be prioritised
- Mechanics and workshops used are registered in the database of approved workshops with a rotation system required
- More assessors have been recruited to address delays indicated

- The location of the municipality and lack of approved workshops in the area make it difficult to allocate work outside the province
- The municipality to provide a list of workshops that have been used over the years who are quick to respond to our maintenance requirements

As part of improvements that have been introduced on the management of the contract, the following has since been introduced:

- Dedicated contacts for each province
- Dedicated email addresses for each province
- Dedicated email addressed for VIP fleet
- Dedicated email addresses for Yellow Fleet (Earth Moving Equipment)
- Dedicated email addresses for general fleet
- Addition of new vendors on the database used by Wesbank to select suitable service providers

We continue to monitor the performance of the contract after these and provide more guidance on ways to improve our maintenance work.

7. Strategic Objectives

The municipality developed strategies for the next five years from which short-term operational plans and targets talking to at least a period of one financial year are developed and reviewed annually. This is done in the form of the Service Delivery and Budget Implementation Plan (SDBIP) which was approved by the mayor within 30 days after the adoption of the annual budget by the municipal council. The table below gives a summary of the SDBIP with the targets that the departments have been working to achieve on a quarterly basis. The table shows the municipality’s performance for the period ended to ensure they are monitored and achieved at the end of the financial year:

DEPARTMENTS	TOTAL NUMBER OF TARGETS	TARGETS REPORTED	TARGETS ACHIEVED	TARGETS NOT ACHIEVED	ACHIEVEMENT PERCENTAGE	PERFORMANCE COLOUR CODE
ENGINEERING SERVICES	6	6	3	3	50%	
COMMUNITY SERVICES	31	31	28	3	90%	
DEVELOPMENT PLANNING	21	21	18	3	86%	
CORPORATE SERVICES	23	23	21	2	91%	
BUDGET & TREASURY OFFICE	36	36	34	2	94%	
MUNICIPAL MANAGER’S OFFICE	43	43	35	8	81%	

DEPARTMENTS	TOTAL NUMBER OF TARGETS	TARGETS REPORTED	TARGETS ACHIEVED	TARGETS NOT ACHIEVED	ACHIEVEMENT PERCENTAGE	PERFORMANCE COLOUR CODE
OVERALL PERFORMANCE	160	160	139	21	87%	

	101+%	Performing above the target
	96-100%	No deviation in plans – targets achieved
	67-95%	Minor deviation – targets not achieved
	0-66%	Major deviation – targets not achieved

Even though the table above paints a bleak picture of unacceptable performance standards by any stretch of imagination for our service delivery department in the form of engineering services it is an improvement from what the picture looked like in the previous year at the same time. A detailed report will be presented separately with the reasons and proposed remedial actions to remedy the situation.

8. In-year budget statement tables

a) Budget Statement Summary

EC443 Winnie Madikizela Mandela - Table C1 Monthly Budget Statement Summary - Mid-Year Assessment

Description	2023/24	Budget Year 2024/25

The table above shows a summary of the municipality's financial performance for the period ended 31 December 2024. The first part of the table shows financial performance which gives information about whether the municipality made a loss or a surplus during the reporting period followed by a summary of the municipality's performance on its capital budget. This is then followed by the municipality's financial position, a summary of the cashflow recalculation and then debtors as well as creditors age analysis.

b) Financial Performance by functional classification

The table above shows the municipality's financial performance for the period ended 31 December 2024 in functional classification which was created by National treasury to assist in reporting financial information per functional area. This information is consolidated at National treasury level to produce the provincial and national financial reports.

c) Revenue by Source

The above table shows the municipality's revenue per revenue source. This is in line with the services that municipalities are providing. An analysis of each revenue source follows below:

- PROPERTY RATES:** The municipality being a local municipality levies property rates on all rateable properties within the Mbizana area in terms of the Municipal Property Rates Act No.6 of 2004. The categories of rate payers include government departments which own properties, like Public Works which are levied once at the beginning of the financial year which lead to the revenue generated for the month to be R16.6 million in the 1st month and a decrease to around R617 thousand for the following months to the end 30 June 2025. The current revenue recognised on this stream may seem to be way above the monthly target but it is important to note that this is only due to properties levied only at the beginning of the financial for the whole year.

- **ELECTRICITY REVENUE:** The municipality distributes electricity in the town area as per its distribution licence. This is one of the major sources of revenue for the municipality as households now depend on electricity for their day to day living. This is a trading service where the municipality gives electricity equivalent to the amount provided by the consumer. Municipalities are therefore expected to at least recover the cost of providing the service. The approval of tariffs by NERSA is set up such that the municipality can make some form of surpluses from sale of electricity so that it may be able to maintain the infrastructure used to render the service and defray all other operating expenses related to the service provision. The municipality has generated over R3.7 million for the month and a year to date actual of R24.7 million. This is below the projection by about 6% (about R1544 thousand) which may add up to R3 million by the end of the year if attempts to better the situation do not yield the desired results. As previously reported, the municipality has installed a automated meter reading system to assist in reducing losses and detect areas where there might be tampering with the municipal infrastructure.

In the previous months, it was reported that the current contract for the automated meter reading system is coming to an end. While the municipality was in the process of drafting specifications and terms of reference National Treasury confirmed finalisation of a panel of service providers for the provision of the same service. The municipality has now completed the process of applying for participation in the transversal contract which will then replace the current contract. A resolution of council has been secured to extend the current contract for a period of three months to allow processes including installation of the new system to be completed before the new contract can take over. The month of November was targeted as the month where the transversal contract would start being utilised but unavailability of personnel from the Office of the Chief Procurement Officer to approve the municipality's application to participate in the contract resulted in the target not being met as follow-ups were still being made on when can the municipality expected written approval. During the month of December 2024, the municipality received written approval from National Treasury to participate in the transversal contract as was previously report. The selection process and a kick-off meeting will be done during the month of January 2025, this will hopefully ensure completion of the necessary setup as well.

- **Solid Waste Removal:** Collection and disposal of solid waste is one of the services that the municipality provides to the town area and a few sites outside of town including the Wild Coast Sun Casino. The municipality has implemented a new billing approach which ensures that all customers who individually generate waste are billed individually. The exercise was conducted by the refuse section and the billing database has significantly increased and showed us that there are

customers we have been providing the service to at no cost at all. This has resulted in the revenue billed for the month to be around R402 thousand which is more than the projection by 17%. An investigation in the past has indicated that a decrease is seen during the year which is as a result of the correction of categories from the verification conducted by the user department from the categories previously confirmed for billing purposes when customers raise queries.

- **Interest on Investments:** The municipality invests surplus cash and unspent grants to generate interest that would be utilised to fund other municipal programmes, this interest includes interest on the municipality's positive balance in the municipality's main account. The table above shows that the municipality generated over R2.9 million worth of interest on investments with a year to date actual that is above the projection by 43% which we hope will improve as the year progresses to supplement the municipality's funding capacity during the adjustment budget process.
- **Interest on outstanding debtors:** The municipality charges interest on debtors owing for more than 30 days at a rate of prime plus 2% as per the municipality's credit control and debt collection policy. This has yielded interest of R842 thousand for the period ended 31 December 2024 which is now more than the amount projected for the period by 16%. This still requires intense debt collection initiatives. A higher interest generation would mean the municipality's debtors are more than what they were projected to be.
- **Fines:** The municipality has a traffic department which enforces traffic laws and the municipality's by-laws. Anyone found to have contravened these laws is charged a fine accordingly. These fines also include fines for electricity tempering. The municipality has almost (R300) not recorded any revenue on fines during the month of December 2024. Even if there was revenue recorded, it is worth noting though that this may not represent cash collected and measures should be put in place to ensure people pay their fines. Experience has taught us that people generally do not settle traffic fines and, in most cases when they do they do so at lower values than the initial revenue recognised. This is one of the areas where we were forced to adjust down in the previous year to ensure that we end up with realistic revenues.
- **Rental of facilities:** The municipality has properties that it rents out to other businesses and individuals from which it generates revenue. These include properties like the Boxer complex, Spar, Browns, Bargain and others. The revenue generated here also includes rental for billboards and advertising around the town area. The municipality has generated about R414 thousand for the month of December 2024 which lead to the actual performance just above the projection by 5% which is a result of other revised contracts and adjustments related to the contractual arrangements.

- **Licenses and permits:** The municipality has a fully functional testing station which has been in operation for at least the past five years. This has been one of the municipality's promising revenue stream since the completion of the testing station. The municipality has not reported any revenue for the period because the period coincided with the festive recess. This means that all the transactions related to December 2024 and January 2025 will appear on the January 2025 report. The municipality has generated below the projected collection by 47% which is an improvement from 37% reported in the previous month. This comes after an investigation into the declining revenue revealed that the reports submitted did not contain sufficient details for the municipality's own share of revenue and therefore revenue recorded understated. Since this has been corrected, an improvement from 86% underperformance to the current 47% has been recorded.
- **Transfers and subsidies:** The municipality receives operating grants, both conditional and those without conditions. The report shows that an amount of over R124.1 million has been transferred to revenue for the period ended 31 December 2024 from the operating grants whose conditions have been met. This has recorded a year to date performance of over R292 million as this is the sixth month of the financial year and is above projected performance by 48% due to mainly the equitable share that has been received in advance for the next three months of the financial year as well as spending on the INEP and disaster grants. This happens when the municipality has spent the grants according to the requirements of the funders or DORA. The biggest chunk of these transfers is equitable share that was received during the month of July 2024 and December 2024.

d) Debt Collection

The table below shows a 72% overall collection rate for the month ended 31 December 2024. However, we note a 89% collection rate on leasehold fees, 80% on electricity, 71% on property rates and 62% on refuse removal for the period. In line with the billing on government properties reported in the earlier sections of the report, we also see the impact of that in the collection of property rates where government departments have paid for the billing as well.

Losses on Disposal of Assets		9 370	-	-	-	-	-	-	-	-
Other Losses		9 252	-	-	-	-	-	-	-	-
Total Expenditure		413 140	499 830	-	32 239	192 124	249 915	(57 791)	-23%	499 830

The table above shows the municipality's expenses per type of expenditure. This is compared with the revenues generated per type to determine whether the municipality is operating at a loss or a surplus.

- Employee costs and Remuneration of councillors:** The municipality has remunerated employees who are remunerated as per the prevailing Bargaining Council agreements. The expenditure for the period ended 31 December 2024 reflects an amount of R10.5 million for employee costs and R2.6 million for the remuneration of councillors. The remuneration of councillors shows a 5% underspending compared to what is expected at the same period. Employee costs have continued to record a 10% saving that is always expected considering issues like, annual increment for senior managers, annual and long-term bonuses, resignations, leave provisions and vacant positions.
- Bulk Purchases:** The municipality purchases electricity in bulk from Eskom for distribution to the town customers. This is the main input cost to the distribution of electricity. The table shows that the municipality spent about R4 million on electricity purchases for month ended 31 December 2024 with a year to date actual of R25 million which is below the projected expenditure by 7%. Eskom has since changed their billing date to coincide with the month end from their traditional billing date of the 10th of the following month.
- Depreciation and asset impairment:** The depreciation run has been performed after the end of each quarter and recently monthly, resulting in the depreciation for December 2024 being R2.7 million. An update of the depreciation amounts will be made in the months to follow as the asset register has just been reviewed to ensure that the assets are correctly accounted for in the annual financial statements. This has resulted in the depreciation recorded being below the projection for the month by about 41%.

- **Contracted Services:** This relates to the municipality’s general expenses that have been incurred during the month where only external service providers could be used to render the service or procure goods. This shows that the municipality incurred R7.4 million worth of expenditure during the month and a year to date of R42.3 million which is below the projection by about 31%. This is as a result of slow activity during the first months of each financial year which is always experienced, however, it is worth reporting that this is better performance than that recorded in the previous years at the same time and we hope this will result in an improvement on the institution’s overall performance.
- **Other Expenditure (Operational Costs):** This also shows a saving of about 27% (and improvement from 29% recorded in the previous months) which might be as a result of the slow spending during the first months of each financial year which is always experienced at this time of the year. This requires though that departments that are currently underspending be sensitised of the matter.

f) Revenue by Municipal Vote

EC443 Winnie Madikizela Mandela - Table C3 Monthly Budget Statement - Financial Performance (revenue and expenditure by municipal vote) - Mid-Year Assessment

Vote Description	Ref	2023/24	Budget Year 2024/25

The municipality has so far recorded a surplus of over R208.2 million for the period ended 31 December 2024. This must be seen in the correct perspective as there has been receipts of the expected grants from the national purse. The municipality is still heavily reliant on grant funding and as such the surpluses still need to be seen in that perspective as they relate to expenditures that are still to be incurred. Measures still need to be put in place to move the municipality towards self-sustainability.

9. Capital programme performance

a) Capital expenditure by asset class and sub-class

Total Capital Expenditure on upgrading of existing assets	1	42 574	23 720	-	-	4 673	11 860	7 187	60,6%	23 720

The above tables indicate that the municipality spent R35 million for the month from its capital budget for the period ended 31 December 2024. This is a much better performance compared to the performance recorded at the same time in the previous financial years even though improvements are still required but at least this kind of performance is encouraging, especially on the Capital Grants side which has always been a struggle.

b) Capital Expenditure by municipal vote

Total Depreciation	1	32 417	54 371	-	2 704	16 136	27 185	11 049	40,6%	54 371

The table shows that the municipality spent R2.7 million on the depreciation and amortisation of its assets and infrastructure during the month of December 2024 with a year to date actual of R16.1 million being below the projected spending by over 40.6% for the same period.

10. Supply chain management

The municipality has an established Supply Chain Management Unit in terms of the Municipal Finance Management Act. The section is placed within the Budget and Treasury to deal centrally with all issues that relate to procurement, demand management, logistics and disposals. The following is the indication of the activities that have occurred within the department for the period being reported on.

a. Acquisition management

To improve the system of acquisition management the following should be taken into considerations

- Goods and services must only be procured in accordance with authorized procurement processes.
- Procurement of goods and services, either through quotations or through a bidding process, must be within the threshold values as determined by National treasury and the municipality's supply chain management policy.

b. Handling of tenders during and post Covid-19

In attempt to continue delivering services to the communities decisions needed to be taken to ensure that the municipality proceeds with the procurement processes in line with the limitations placed by the regulations governing the movement of people and other things.

The municipality introduced virtual tender briefings using the Facebook live platform to share information with interested parties and provide clarities on tenders issued by the municipality. This was coupled with creation and introduction of email addresses where tenders can be submitted. This was done to address the following:

- Procurement to proceed despite the lockdown
- Protect the public and municipal staff from direct human interaction
- Limit movement in line with the lockdown
- Avoid documents which are known to be one of the carriers of COVID-19

To continue ensuring these processes are transparent the following has been introduced:

- After each live Facebook briefing a register is generated of all those who interacted with the presentation as instructed and posted on the municipal website so that all interested parties know who is considered to have fully complied

- Once the tender closing time passes, a register indicating the name of the company, tender amount, email address, date and time is prepared and posted on the municipal website for all bidders to know if their tenders will be considered
- All tenders are evaluated in electronic versions
- The recommended bidders are then requested to make a submission of the hard copies of their submission (originals)
- Only the hard copy of the winning bidder is then filed which also addresses issues with filing space and safety of the documents.
- This was then formalised and included in the review of the municipality's SCM policy.

c. Procurement requests below R2000.00

S13.2. (b)(1) Supply Chain Management policy states that 01 written quotation will be obtain for any procurement of transaction below an amount of R2000 including vat.

d) Deviations

DEVIATIONS REGISTER											
Date Reported to council	TRANSACTION DETAILS							PROCUREMENT PROCESS			
	Payment Date	Payment Number	Supplier Name	Amount	Description of Incident	Approved by	Date Approved	Department Responsible	Normal Process	Process Followed	Reason for Deviation
August 2024	15/08/2024	EF008551-0008	Timeless T	R 190,800.00	It was not possible to appoint a Service provider since they all were Non-Responsive	Municipal Manager	Thursday, July 25, 2024	Community Services	7 Day Tender	7 Day Tender	No fully responsive Bidder
August 2024	15/08/2024	EF008549-0001	SABC	R 89,838.00	Municipality wanted a Radio Station with Isixhosa Coverage with more Audience	Municipal Manager	Thursday, July 11, 2024	Municipal Managers office	7 Day Tender	Direct Procurement	Public Broadcaster
			TOTAL	R 280,638.00							

- **Timeless T** – All bids received were not fully compliant and a recommendation to appoint based on price was made since the event date could not be moved and procurement had become an emergency. All tenders received were evaluated and the tender with the lowest price was appointed on the basis of their price.
- **SABC** – the municipality required radio broadcasting that was in the language mostly spoken in the province and with coverage in most areas of Mbizana, SABC, a public broadcaster was approached for a quotation and appointment for the service. This was done after a procurement process did not result in the appointment of a suitable service provider.

			42 746 500,02			<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

During the audit of the 2023/24 financial year, the office of the Auditor General identified practices that were found not to fulfil the transparency requirements on the allocation of work for contractors that are on the panels set up by the municipality. These went back to as far as 2013 in identifying all transactions affected by the same issue. These are therefore submitted for council and its structures to investigate and decide how these must be dealt with.

13. Regulation 17(1) c Procurement

Regulation 17 of the Municipal Supply Chain Management Regulations dealing with Formal written price quotations allows the municipality where it is not possible to obtain at least three quotations that reasons be recorded and approved by the Chief Financial Officer. This differs from the Deviations provided on regulation 36 of the same regulations.

Below is the list of transactions that have been procured through the utilisation of the regulation 17(1)c during the year:

SECTION 17 TRANSACTION DETAILS							PROCUREMENT PROCESS			
Payment Date	Payment Number	Supplier Name	Amount	Description of Incident	Approved by	Date Approved	Department Responsible	Normal Process	Process Followed	Reason for Section 17

14. Contract Management

S116(2) of the MFMA requires that the accounting officer of a municipality must –

- a) Take all reasonable steps to ensure that a contract or agreement procured through the supply chain management policy of the municipality of the municipality is properly enforced;
- b) Monitor on a monthly basis the performance of the contractor under the contract or agreement;
- c) Establish capacity in the administration of the municipality –
 - i. To assist the accounting officer in carrying out the duties set out in the paragraphs above; and

ii. To oversee the day-to-day management of the contract or agreement; and

d) Regularly report to the municipal council on the management of the contract or agreement and the performance of the contractor.

In keeping with the above prescripts, the table below shows the contracts that the municipality currently has in operation.

15. Database rotation

The following table indicates the service providers that have been utilised during the six months ended 31 December 2024. This is in keeping in line with demonstrating that we are making strides in ensuring that there is rotation of service providers and no single provider is preferred.

Function Name	Order Date	Value	Specifications	CSDRefNumber	Ward no.

PART 2 – SUPPORTING DOCUMENTATION

1. Implementation of the Finance Management Internship Programme

The municipality implements the Finance Management Internship from funded through the Financial Management Grant as one of the conditions indicated in the grant framework. The program is implemented in line with the guidelines that govern the following:

- a) Number of interns, which is 5 at all times
- b) The minimum requirements for recruitment of the interns
- c) The recruitment process to be followed
- d) The duration of the programme
- e) The remuneration structure and limits
- f) The reporting requirements
- g) The structure of the programme

During the month of August 2024, the department received a request from Internal Audit requesting an extension of the contracts that were coming to an end for two interns allocated within Internal Audit for a further 12 months as permitted by the internship program guidelines which was approved and a submission to both Provincial and National Treasury has been made in this regard. As reported on the earlier part of the report dealing with staff movement, one of the interns enrolled in the program was successful in the replacement of the member in the payroll section who resigned and that has left a vacancy on the Internship program which the expected recruitment processes was concluded by the end of October 2024.

2. Debtors' analysis

The table above shows municipal debtors for the month of December 2024 per income source and per customer group. It should be noted that the municipality's leading source of income when it comes to debtors is property rate followed by interest on arrears which is an indication that we have more debtors that have stayed for longer periods outstanding. It should also be noted that the municipality's majority of debtors are more than 150 days old. This could prompt a write-off at some point if these are not collected as they overstate the municipality's balance sheet.

The biggest category of debtors is government and they owe the municipality long outstanding amounts followed by households. This is due to some accounts that are being disputed by consumers and government schools that public works says are not surveyed and therefore they cannot pay according to their processes until they have been surveyed.

3. Creditors' analysis

EC443 Winnie Madikizela Mandela - Supporting Table SC4 Monthly Budget Statement - aged creditors - Mid-Year Assessment

TOTAL INVESTMENTS AND INTEREST	2									447 858	19 286	(219 562)	340 899	588 481

The table above shows the municipality's investments performance. The table shows that the municipality's cash and cash equivalents increased during the period by over R140.6 million which lead to an increase in its investments for the mid-year ended December 2024. It should however be noted that this only reflects the difference between what was received and what was spent.

5. Allocation and grant receipts and expenditure

a) Transfers & Grants Receipts

The above table shows expenditure on grants that have been allocated to the municipality.

c) Expenditure on approved rollovers

The municipality submitted roll-over applications at the end of August 2024 and approval was received in October 2024 and these will be included in the next adjustment budget.

d) Compliance with DORA requirements

The municipality has the following main conditional grants allocated to it for the year:

- **Municipal Infrastructure Grant:** The grant is mainly for constructions of municipal infrastructure such as Access roads, Community facilities (Halls, Sport fields, ECDCs and more). 5% of the allocation is allocated for the operations of the Project management unit. The grant is disbursed in tranches informed by the projections submitted by the municipality before the start of the financial year. This was normally disbursed in three tranches a year 60% in July, 20% in December and 20% in March. From the 2020/21 financial year a new system introduced where 30% is transferred in July and requiring that at least 60% of that must be spent by the end of September to qualify for the next trench. It is with great disappointment to report that the municipality did not qualify for the send trench until the end of November this year because the amount spent did not meet the minimum spending requirements. The fund also has a spending requirement of 40% of the allocation by December to qualify for consideration of additional funds during the adjustments period with anything less than that qualifying for a reduction in the amount allocated to other municipalities that have spent as required. The table above shows that the municipality was able to achieve the 40% requirements and should then not be subjected to a possible reduction of the allocation which may bring more pressure to the limited resources to complete the current year projects.
- **Integrated National Electrification Program:** The grant is mainly used to supplement the work being done by Eskom to address electrification backlogs in rural communities. The grant's conditions do not include any operating portion like the Municipal Infrastructure grant even though they are both capital in nature. The table above shows that the municipality has already spent over 90% of the allocation for the year. This might require the municipality to use its own funds to complete the projects being implemented if no additional funding is allocated to the municipality during the mid-term budget adjustment.
- **Municipal Finance Management Grant:** The grant was introduced and is allocated to assist municipalities build and sustain financial management capacity. The grant is mainly for Budget and Treasury operations and focuses on the following areas:
 - Recruitment and training of five tertiary institution graduates within the accounting field including audit and risk management at a time

- Strengthen capacity and upskill officials in the Budget and Treasury Office (BTO), Internal Audit and Audit Committees
- Acquisition, upgrade and maintenance of financial management systems to produce multi- year budgets, in-year reports, Service Delivery and Budget Implementation Plans, Annual Financial Statements, annual reports and automated financial management practices including mSCOA
- Support the training of municipal officials in financial management towards attaining the minimum competencies
- Support the preparation and timely submission of quality annual financial statements for audits. Technical support to municipalities must include the transfer of skills to municipal officials
- Support implementation of corrective actions to address root causes/audit findings in municipalities
- Implementation of financial management reforms and address shortcomings identified in the Financial Management Capability Maturity Model (FMCMM) Assessment report
- Support the implementation of the financial misconduct regulations and promote consequence management to reduce UIF&W incurred by municipalities
- Support to strengthen financial governance and oversight, as well as functioning of Municipal Public Accounts Committees
- Support the training of municipal officials that are members of the BID committees

9. Compliance with legislation and key deadlines

The municipality has complied with legislation and key deadlines relating to the implementation of the IDP and the budget. Below is a summary of the key milestones that the municipality has ensured compliance with:

- The SDBIP was approved within 30 days from the approval of the budget
- The schedule of key deadlines or IDP and budget process plan was approved at least ten months before the start of the budget year
- All monthly reports were prepared and submitted within 10 working days of the end of each month as required by s71 of the MFMA
- All quarterly reports were prepared and submitted within 30 days of the end of the quarter
- The mid-year assessment was presented by the 25th of January to the Mayor
- The budget was adjusted within 60 days of the revision of government grants
- The main adjustment budget was approved by council by the 28th of February 2024
- The draft budget was tabled and adopted by council by 31 March 2024
- The budget for the 2023/24 financial year was tabled and approved by council by 31 May 2024
- Annual financial statements were prepared and submitted to the AG for auditing by 31 August 2024.
- The audit process commenced before the end of August and completed by 30 November 2024

10. Recommendations

Based on the financial and non-financial performance reported above it is recommended that –

- The municipality’s budget be adjusted for instances of both under generation and over generation in some instances of revenue
- The municipality’s budget be adjusted to refocus savings registered on the operating budget towards service delivery initiatives
- The municipality’s budget be adjusted to authorise expenditures considered unforeseen and unavoidable
- The report on Irregular expenditures be referred to a committee of council for investigation in line with the regulated process of dealing with such
- That the audit action plan as presented separately, be noted and further be recommended for adoption, implementation and monitoring
- The municipality’s SDBIP be revised to accommodate changes in the budget and to correct errors made on the original SBDIP.

11. Municipal Manager's quality certification

Quality Certificate

I, Luvuyo Mahlaka, the municipal manager of Winnie Madikizela-Mandela Local Municipality, hereby certify that –

- Monthly budget statement
- Quarterly report on the implementation of the budget and financial state of affairs of the municipality
- Mid-year budget and performance assessment

for the mid-year ended 31 December 2024 has been prepared in accordance with the Municipal Finance Management Act and Regulations made under that Act.

Print name: Luvuyo Mahlaka
